Allowable Subject Matter

Claims 14-16 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or render obvious a method for manufacturing a thin-film magnetic recording medium, comprising the steps of: forming a laminate for magnetic data recording on a nonmagnetic substrate; said step of forming being a dry process in a vacuum atmosphere; forming a protective layer on said laminate; said step of forming a protective layer being a dry process in a vacuum atmosphere; plasma-etching a first surface of said protective layer; said step of plasma-etching conducted in a vacuum and in a process gas mixture comprising an inert gas, an oxygen gas, a nitrogen gas, and a gas selected from the group consisting of a chlorine gas and a fluorine gas; conducting the steps of forming a laminate, forming a protective layer, and plasma-etching continuously; and forming a lubricant layer on said first surface of said protective layer, whereby surface defects are minimized and surface quality is greatly improved.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
